Dear Parent or Guardian, The Language Lab is used to further your child's vocabulary and language. The following vocabulary is based off of the Ling Thesaurus. It is important that your child understand the concept of each word in the phases. Phase 1 contains words most frequently used and learned first. Phase 2 contains the next most frequent words. Phase 3 contains words needed for a basic minimum reading level. Phase 4 contains words that should be used in school life. Use this guide and resource as much as you can to interact with your child and improve their language.

--Beginnings SC Team

Take a Trip!

Go to a local farm or zoo and locate as many items from the list that you can. Discuss the purpose of each item you find. Create a list of all the items that you find and a list of the items you don't find. Compare the two lists and discuss the differences of each list

Grab some materials!

Become a farmer, and create a garden or plant a flower. Discuss the process that the plant will go through. Use as many words from the vocabulary list to create a story about the plant.

Use your imagination!

Take a walk outside, and make a list of all the items that you see. Circle or highlight any words that you find that are from the list. You can also pretend that you are a farmer, and discuss all the materials that you will need to create a successful farm.
