Dear Parent or Guardian, The Language Lab is used to further your child's vocabulary and language. The following vocabulary is based off of the Ling Thesaurus. It is important that your child understand the concept of each word in the phases. Phase 1 contains words most frequently used and learned first. Phase 2 contains the next most frequent words. Phase 3 contains words needed for a basic minimum reading level. Phase 4 contains words that should be used in school life. Use this guide and resource as much as you can to interact with your child and improve their language

--Beginnings SC Team

### Take a Trip!

Go to your local museum or art museum. Observe and talk about what you see. Talk about the different colors you see, talk about the different paintings you see, and talk about any differences you see between paintings.

### Grab some materials!

Become an artist. Create a painting or drawing using as many colors as you can. Talk with your child about what they created, have them talk about the colors they used, have them talk about what methods they used to create the drawing or painting.

Visit our Pinterest for more activities:

### Use your imagination!

Go outside and observe the different colors that you see. Compare if colors are the same or different. Talk about why objects may be a certain color. Create sentences using the different colors that you observe outside.

Share Photos of your language lab experience with us!
