Sea lion
Shark

Phase 4

Skunk
Trout
Walrus
Whale

Phase 2

Bull
Camel
Donkey
Goat
Goldfish
Lion
Monkey,
Pet

Dear Parent or Guardian, The Language Lab is used to further your child's vocabulary and language. The following vocabulary is based off of the Ling Thesaurus. It is important that your child understand the concept of each word in the phases. Phase 1 contains words most frequently used and learned first. Phase 2 contains the next most frequent words. Phase 3 contains words needed for a basic minimum reading level. Phase 4 contains words that should be used in school life. Use this a guide and resource as much as you can to interact with your child and improve their language

--Beginnings SC Team

Take a Trip!

Go to the zoo with your child and see how many words off the list you can find as you find a word cross is off and say a few sentences about the word. As you are going through the zoo, also make a list of words that are not on the list that you observe. Also say a few sentences about the word to your child and have them speak about the word as well.

Grab some materials!

Have your child find a picture of each animal in a book at the library or in your home. Make a list of animals that you are able to find and a list of animals that you are unable to find. Talk with your child about why each animal may be in different books

Visit our Pinterest for more activities:

Use your imagination!

Read through the list and have your child act out each word and have them create a short story about each word. Also have your child describe each word to you.
