Dear Parent or Guardian, The Language Lab is used to further your child's vocabulary and language. The following vocabulary is based off of the Ling Thesaurus. It is important that your child understand the concept of each word in the phases. Phase 1 contains words most frequently used and learned first. Phase 2 contains the next most frequent words. Phase 3 contains words needed for a basic minimum reading level. Phase 4 contains words that should be used in school life. Use this a guide and resource as much as you can to interact with your child and improve their language

--Beginnings SC Team

Take a Trip!

Go to a local store with televisions. Talk to your child about all that they see at the store. Take the vocabulary list to the store with you. When you see an object related to the list, highlight or circle the word on the list. Make a new list of words that you talked about.

Grab some materials!

Help your child write down a list of their favorite tv shows. Have them also write down the times for the tv shows. While they are doing this ask them questions relating to their favorite TV shows. Who are some characters, why do you like the show, when do you watch it?

Visit our Pinterest for more activities:

Use your imagination!

Have your child pretend that they are in a tv show. Have them act out the TV show and commercials. After they act out the show, talk about how the show related to some of the vocabulary words from the list.
