		Tablets

Dear Parent or Guardian, The Language Lab is used to further your child's vocabulary and language. The following vocabulary is based off of the Ling Thesaurus. It is important that your child understand the concept of each word in the phases. Phase 1 contains words most frequently used and learned first. Phase 2 contains the next most frequent words. Phase 3 contains words needed for a basic minimum reading level. Phase 4 contains words that should be used in school life. Use this a guide and resource as much as you can to interact with your child and improve their language

--Beginnings SC Team

Take a Trip!

Next time you visit a medical setting, talk to your child about what you see. Take the voculabry list with you, and highlight and circle each word that you observe. Also create a list of words that you observe that aren't on the list.

Grab some materials!

Help your child write a story about going to the doctor. Have them use as many vocabulary words from the list as possible. Have them write about what they may see, and what emotions they may feel going to the doctor.

Visit our Pinterest for more activities:

Use your imagination!

Play doctor with your child and act out each word on the list. Take turns having your child act out the different vocabulary words. After each word discuss what each word means and where they may see the word being used.
